

Practice 12-1 **Tangent Lines**

Assume that lines that appear to be tangent are tangent. C is the center of each circle. Find the value of x .

In each diagram, \overleftrightarrow{AB} is tangent to $\odot C$ at B . Find the value of x .

In each diagram, \overleftrightarrow{ZY} is tangent to circles O and P . Find the value of x .

In each diagram, a polygon circumscribes a circle. Find the perimeter of each polygon.

Find the radius and $m\widehat{AB}$.

Find the value of x to the nearest tenth.
